WORK EXPERIENCE

Java Backend Developer
Capgemini

06/2022 - Present   *Bangalore, Karnataka*
Achievements/Tasks

- Developed RESTful APIs using Spring Boot for efficient data management and communication in Java backend applications.
- Spearheaded the creation of REST APIs for the internal WeSynergize platform, resulting in notable recognition for contributions to the project's success.
- Our team won in hackathon in which we optimized calls for one of our portal which saved memory and time consumption.

Contact : Priya Ranjan Kumar - priya.kumar@capgemini.com

Java UI Developer
Capgemini

06/2023 - Present   *Bangalore, Karnataka*
Achievements/Tasks

- Contributing actively to the frontend team, specializing in GOOL and DOJO technologies to enhance user interface functionalities and optimize user experience.
- Successfully transitioned a legacy portal built with DOJO to a modern UI using React, enhancing user experience and improving maintainability.
