## PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of hands-on experience building scalable, high-performance web applications with Java Full Stack using Spring Boot & React, MERN stack, also proficient in MEAN stack development. Proven success in modernizing legacy systems, developing RESTful APIs, and delivering optimized, user-centric solutions in Agile environments. Strong proficiency in full software lifecycle, performance tuning, and frontend-backend integration.

## TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, Python
- **Frontend:** React, Redux, Context API, Angular, HTML5, CSS3
- **Backend:** Spring Boot, Node.js, Express.js, RESTful APIs
- **Web Technologies:** REST, GraphQL (basic), Web Components (e.g., Material UI)
- **Databases:** PostgreSQL, MySQL
- **Tools:** Git, Docker, Jenkins, Maven, Gradle, JIRA, Confluence, AWS (EC2, S3, RDS), Kubernetes
- **Testing:** JUnit, Mockito

## PROFESSIONAL EXPERIENCE

### Capgemini (Mercedes-Benz) - Full Stack Developer

Pune | July 2022 - Present

- Migrated legacy UI from DOJO to React using MERN stack, improving performance by 80% and reducing load time by 30%.
- Developed modular frontend using React Hooks and Context API.
- Built and maintained REST APIs with Spring Boot and Node.js.
- Used JIRA and Confluence in Agile workflows for tracking and documentation.
- Participated in code reviews, CI pipelines via Jenkins, and Docker-based deployments.
- Collaborated with design teams using Material UI and internal design systems.

### The Entrepreneur Network - Angular Developer Intern

Indore | May 2021 - June 2021

- Built a dynamic music streaming web app with playlist features, real-time streaming, and responsive UI using Angular.
- Achieved 99% uptime and handled 10,000 concurrent users during testing.

### SagurIT - React Native Developer Intern

Indore | Feb 2021 - Apr 2021

- Built mobile apps using Redux, AsyncStorage, and real-time APIs.
- Reduced crash rates by 30% through effective debugging and optimization.

## PROJECTS

- **Sync pickle ball (Live)** - Website for startup with landing page and managing bookings made using MERN stack.
- **Portfolio (Live)** - My portfolio website, made using react.
- **Criminal Detector** - Face-matching system with real-time processing and ML integration to detect criminals.
- **FEM Player** - Music player with facial emotion detection for mood-based streaming.
- **STUPRO** - Web app connecting students to affordable services and accommodations.
- **Second Home** - Web app to connect accommodation finders to various service providers.

### Achievements:

- Team Lead - Rock Crawl (BAJA) & One Dollar Venture
- State-Level Gold Medalist - Karate
- Kho-Kho Coach & Player - School Level
